EDUCATION AND EXPERIENCE

2022–PRESENT

ATENELO DE DAVAO UNIVERSITY

- Bachelor of Science in Computer Science
- Transferee

2021–2022

MAPUA MALAYAN COLLEGES MINDANAO

- Bachelor of Science in Electronics Engineering

SKILLS

- Javascript/Typescript
- Tailwind CSS
- NextJS
- MySQL/PostgreSQL
- RESTAPI
- Python
- Java
- Git/Github

ABOUT ME

I'm Christian Rhyss Jimenez, a third-year Computer Science student at Ateneo de Davao University with a strong interest in back-end development. I enjoy learning through hands-on coding. Outside of tech, I'm into photography, cars, and video games.

NOTABLE PROJECTS

Cancer Companion

- Full Stack Developer
 - Part of a two-man team that developed a web-based Healthcare Management Information System with roles, permissions and authentication
 - Built using NextJS and Supabase
 - Project commissioned by UIC-Marian TBI and used as a group project for the Software Engineering course

Employee Management System

- Back End Developer
 - Developed a web-based Employee Management System that can generate payroll reports and payslips
 - Designed the database and created the APIs
 - Built using NextJS, Prisma and PostgreSQL

Calculator Website

- - Built and deployed a website that can calculate the fibonacci sequence, salary taxes, and unit conversions
 - Built using HTML, CSS and JS
 - Project for the Intro To Computing course

Responsive Website

- - Built and deployed a responsive website using HTML and CSS about the biography of Alan Turing
 - Project for the Applications Development course
